

SPAEN – NEWS

Together We Can Make A Difference For Those Affected By Sarcomas!

Sarcoma Patients EuroNet Special - SPAEN Conference Report 2018 available now!

Dear SPAEN members and friends,

it's only a couple of weeks ago that we held our 8th SPAEN Annual Conference in Milan, Italy - for the first time in conjunction with the ESMO Sarcoma & GIST Symposium.

We are happy to share the [2018 Annual Conference Report](#) with you today. Take a look back, read about all the sessions, the Advocacy in Action Award 2017 and the SPAEN Roundtable during the ESMO conference and more.

The conference was a huge success thanks to all who contributed: our committed patient advocates, our experts, never tired to share their knowledge and devote their time to our cause and our partners from the industry for their valuable support.

See some more information about the conference including photos and presentations at the [SPAEN website](#).

We are looking forward to continue working with you towards our common goal ***"Together we can make a difference for those affected by sarcomas!"***

Kind regards,
the SPAEN Board of Directors & team
